Gauci Civil Contracting is a small dynamic company based in Cobbitty NSW with large company capabilities within the Civil Construction and landscaping industries. We live by our ethos of providing “a complete civil solution” and have excelled in this over the years which has seen us grow to where we are now by delivering on our promises every time. Our company has grown with our customer requirements which saw us taking on more and more types of work within the Civil Construction phase, relieving customers of further stress and risk by having a single contact point for a wide range of trades, culminating in Gauci Civil Contracting becoming Principal Contractor on many local and state govt projects as well as commercial building sites offering “a complete civil solution” for a wide variety of projects including Natural and Synthetic turf Sports fields, Public Parks with playgrounds and structural landscaping, Basketball and tennis courts, Cricket nets and practice wickets to Boardwalks and shared pathways.

COMPANY PROFILE

The company has great experience and capabilities with pavement construction, drainage, bulk and detail earthworks, structural landscaping and public domain works, and we are always looking to innovate in regard to time and costs savings for our clients, spending the time on careful planning and encouraging waste reduction through high usage of recycled products where possible, and the continuous upgrading of our fleet of new fuel efficient machines.

Keeping our business small, allows us to focus on our customer's needs, and deliver a high-quality service as the owners of the business are the ones completing the works onsite.

Being early adoptors of advanced technologies we have invested heavily in technology like installing Full 3D GPS on all our excavators, purchasing our own survey equipment including Robotic Total Station and GPS Rover, Dual Grade lasers and Laser go to provide our clients with the best possible outcomes for each and every project ensuring they get the value for money they deserve.

Our electronic job management system (PROCORE) enables us to capture all site information and documentation and present to the customer in easy to access formats in live time, allowing us to focus on our customer's needs, and deliver a high-quality service beyond expectations.

The company's core businesses are civil construction, Landscaping and sports ground construction, drainage, plant hire and project management within these core areas:
The company's services include but are not limited to:

- Full Project coordination
- Civil construction (stormwater, bulk and detail excavation, site grading) sandstone retaining walls
- Sports courts and fields surfacing and construction (Tennis courts, Basketball courts cricket nets, hockey and soccer fields)
- Concrete pavement constructions including building slabs, pathways, stairs and shared paths etc
- Plant hire and bulk haulage
- Asphalt and concrete carpark construction includi
- Full roadway construction from subgrade through to linemarking and signage installation

- Sub-Division construction from greenfield site through to completion
- Playground construction and installations
- Landscaping (both soft and hardscape)
- Sports fields construction including ancillaries (eg lighting, drainage,)
- Retaining wall construction – specializing in sandstone log retaining walls

CORE SERVICES

COMMERCIAL CONSTRUCTION AND PROJECT MANAGEMENT

Navigating the intricate realms of commercial construction requires a blend of precision, expertise, and visionary planning. Gauci Civil proudly stands at the confluence of these attributes, offering comprehensive services in commercial construction and astute project management. From crafting expansive carparks and durable pavements to constructing foundational building pads, our work speaks of meticulous craftsmanship. Our proficiency doesn't end there; we're adept at erecting robust retaining walls and designing efficient stormwater systems, ensuring structural integrity and environmental responsibility. With Gauci Civil at the helm, every project transforms into a seamless orchestration of design, construction, and timely execution, all tailored to the unique demands of the commercial landscape.

RURAL PROPERTY SERVICES INC DRIVEWAYS, LAND CLEARING AND WATERWAY REHABILITATION.

Deep-rooted in our commitment to both utility and nature, Gauci Civil offers a suite of rural property services tailored to harmonize with the pristine countryside. From sculpting driveways that gracefully wind through landscapes, to meticulous land clearing that readies plots for cultivation or construction, every task is undertaken with precision. Our expertise extends to waterway rehabilitation, ensuring nature's lifelines are restored and rejuvenated. At every step, we remain environmentally conscious, integrating sustainable practices that minimize disruption to the natural habitat. With Gauci Civil, rural projects transform, reflecting a synergy of human ingenuity and nature's elegance.

TRUCK AND MACHINERY HIRE

At Gauci Civil, we provide premier wet hire services, bringing forth a fleet of modern trucks and cutting-edge machinery tailored to your project needs. Our offerings aren't just about the equipment; they come with our seasoned operators who ensure seamless operation and project efficiency. From construction sites to landscaping projects, our machinery's versatility is further enhanced by multiple attachments, ensuring precision and adaptability for any task at hand. With Gauci Civil, you're not just hiring equipment; you're securing reliability, expertise, and unparalleled service.

- **Wet and dry hire of Excavators from 2t-30t (3D GPS/UTS available)**
- **wet and dry hire of Track bobcats**
- **multiple attachments to suit - augers, hammers, rippers,**

BULK AND DETAIL EXCAVATION INCLUDING SITE CUTS AND SPOIL REMOVAL

With Gauci Civil, excavation isn't just about moving dirt—it's about doing it right. Whether you're looking at a large-scale site cut or need a more detailed touch, we've got the skills and the machinery to handle it. Big digs, intricate adjustments, we've done them all and we always wrap up by clearing out the spoil. No mess left behind, just a spot-on site ready for what's next. With Gauci Civil, you get both the precision of a pro and the hands-on expertise of a seasoned professional.

- **Survey and set out**
- **Bulk excavation and spoil removal**
- **Cut to fill site level and compact**
- **Detail excavation of footings**
- **Piering to 8m deep**

CORE SERVICES

BOARDWALKS, CYCLEWAYS AND SHARED PATH

In the realm of civil engineering and outdoor infrastructure, Gauci Civil proudly offers a holistic suite of services tailored to enhancing community spaces and promoting sustainable mobility. From scenic boardwalks that serenade nature lovers, to intricate cycleways for the urban cyclist, and inclusive shared paths that cater to every pedestrian, we've got it all covered. Our expertise doesn't just stop at construction; we delve deep into the journey, right from the conceptual design and precise setout to the final touches that mark completion.

- FRP, steel and timber boardwalks, stairs and viewing platforms
- Council shared paths, cycleways and walkways
- Preparation, formwork, concrete placement, backfill and landscaping

SPORTS COURTS, SPORTING FIELDS, PLAY AREAS - SYNTHETIC SURFACES AND NATURAL TURF

Gauci Civil stands as a beacon of excellence in sports infrastructure development, consistently delivering top-tier facilities that cater to both professional athletes and community enthusiasts. At the heart of our service suite is our flexibility in constructing various athletic arenas. Be it a state-of-the-art tennis court, a sprawling cricket field, a vibrant basketball court, or an engaging play area, we're adept at crafting each with precision and passion.

- Hockey Fields
- Cricket Wickets
- Football Fields
- Tennis Courts
- School Play Areas
- Lawn Bowl Greens
- Running Tracks

PUBLIC PARKS & PLAYGROUNDS

At Gauci Civil, we believe in designing and creating spaces that breathe life into communities. Our proficiency in developing public parks and imaginative playgrounds is testament to our vision of fostering connections and nurturing bonds. Every patch of green we plant, every swing we install, is meticulously planned to ensure both aesthetics and safety. Beyond the construction, we infuse the surrounding atmosphere with an essence of camaraderie and inclusivity.

- Bulk and detail earthworks
- Precision earthworks using full 3D GPS/UTS machine control and survey
- Laser grading of surface for accurate pavement placement

SANDSTONE RETAINING WALLS AND STRUCTURAL LANDSCAPING

Gauci Civil specializes in crafting stunning sandstone retaining walls, seamlessly blending form and function. Sandstone's natural elegance combined with its durability ensures both aesthetic appeal and structural integrity. Beyond walls, our expertise in structural landscaping transforms outdoor spaces, merging design and utility. Whether it's a meandering pathway or a serene patio, each project is a testament to our commitment to quality and nature's beauty. With Gauci Civil, every landscape becomes a masterpiece of art and engineering.

- Bulk and detail earthworks
- Precision earthworks using full 3D GPS/UTS machine control and survey
- Laser grading of surface for accurate pavement placement

ENVIRONMENTALLY CAUTIOUS

At Gauci Civil, we recognize the profound impact of our operations on the environment. That's why we've placed environmental management at the core of our business practices. Every project is approached with an eco-centric mindset, ensuring we minimize our ecological footprint and maximize sustainable outcomes. From resource utilization to waste management, we diligently consider the environmental implications of each action.

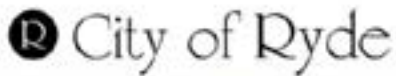

Furthermore, we believe in a proactive approach. Before the commencement of any project, rigorous environmental assessments are undertaken. These assessments not only evaluate potential impacts but also guide us in crafting strategies to mitigate them. We constantly innovate, employing greener technologies and methodologies that harmonize with the environment.

SUSTAINABLE PRACTICES

Gauci Civil has earned a renowned reputation for delivering a diverse range of civil engineering projects with excellence and efficiency.
